Like a white thread carelessly caught on the dark skirts of an untidy wo man lay the dusty road across the dun brown earth. One solltary trav eler alone gave a touch of life to the deadly monotony of a landscape made up of low sky and high hills, continual ly meeting and falling apart in endless undulations. From the earth itself arose the soft, shining shimmer of lutense heat, and through it, with a sor of automatic unconsciousness, plunge the figure whose gun and game bag be spoke the hunter-a hunter and mighty man as well, whose broad shoulders, lithe limbs and lean, unhandsome face bore the unmistakab stamp of breeding and retinement. Startled out of his long day dream Serge Vernon knelt beside the sufferer pressing his brandy flask to his lips. "Stranger," sqid he, "God sent you.

I never thought o danger, never dreamed of treachery until the black hearted seoundrel had gone-gone denying the private marriage into which he had entrapped her and flinging her shame in her fac What could I do but follow and wip out that shame in his heart's blood Murder they called it; just judgment knew it, but for her sake guarded wel the secret that she has never guesse that she must never know. A handsome bald eagle spends two or three hours every morning catching fish at a place within the city limits in plain view of the passengers on a trolley car line. He perches on an oak tree near the shore of a lake in which carp and catfish are plentiful. When his "eagle eye" espies a fish in the shallow water near the shore, down he swoops and, seizing the fish in his talons, files back to the tree, where he eats, and then watches for another victim. Scrofula manifests itself in various forms; swollen glands about the neck and throat, catarrh of the head, weak eyes, hip bone disease, white swelling and offensive sores and abscesses are familiar symptoms, attended usually with loss of strength, poor digestion and pale or bloodless complexion. The skin is sometimes most dreadfully affected, cruptions breaking out on all parts of the body.

Scrofula destroys bone, tissue and flesh; no part of the haman system escapes its When nineteen years old, and about one year after the birth of my first child, the giands on the left side of my neck began to swell.
